

# DAPS&CO

## Data Access & Regulation, Module 3

**Instructor:** Robert Fahey <[robfahey@aoni.waseda.jp](mailto:robfahey@aoni.waseda.jp)>

### **Assignment 3**      **10 Feb 2021 (Wed)**

#### **Details:**

In the zip file of data and code you downloaded for today's class, you should see the file "**Class 3 Assignment.ipynb**" - open this using Jupyter Lab (in Anaconda) in the same way that you opened the file we used in class today.

All of the instructions for completing the assignment are contained in this file. You can write your own code into the boxes provided, then save the file (press the "save" icon in the top left of the window) and send a copy of it to me.

#### **Submission:**

**Email the completed file to me ([robfahey@aoni.waseda.jp](mailto:robfahey@aoni.waseda.jp)) before the next class (Thursday, Feb 11th, 9am CET).**

#### **Late Submission:**

*Late submissions without a reason (illness etc.) will be accepted (with a grade penalty of 5% per weekday) up until the day of the module's final class (Tuesday, Feb 23rd). Any submission after that date will be rejected and your grade for this assignment will be zero.*
